For State Senator.

We are authorized to announce HON. CARTER M. HUFORD as a candidate for State Senator, 24th District, Missouri, subject to the Democratic Primary Election.

We are authorized to announce HON. FRANK E. FARRIS as a candidate for State Senator, 24th District, Missouri, subject to the Democratic Primary Election.

BANKER'S TRUST stock last week slipped from 120 to 85.

THE "war" in Colorado is a disgrace to that State and a refutation of our claim to civilization. As Mrs. Sanders would say, it is "barbarous."

THE Missouri Bull Moosers refuse to return to the old stand-pat fold; such is the dictum of their State Committee promulgated at Kansas City last week.

If I buy a farm for \$315,000, worth \$230,000, and mortgage it for \$3,663,000, what chance is there for the mortgagee, or, in return, what can he sell the mortgage for?

THE canal tolls proposition still engrosses the attention of the Senate. Gentlemen, little speech-making and quick, favorable action is the role for you if you desire to respond to the popular will.

THE House of Representatives at Washington, D. C., will vote on a National Prohibition amendment to the Constitution, within a few days. Its defeat is said to be certain. I shall make a few "ejaculations" thereabout later on.

SAYS BRO. HAFNER OF THE KICKER: I just can't get used to it. I like to read Bro. Ake's editorials, and he just refuses to write any. No more eulogies on tariff reform appears. And he seems to have forgotten all about our late currency reform. Not even the Panama tolls humbug is exciting him—now the "result" that Huerta offered to our flag. What has got him anyway? Bro. McGuire is better situated. He swings off on prohibition when all else gets stale. And after he has pounded the liquor traffic into a frazzle he marches to the polls and votes for its continuance.

I plead guilty to editorial lapsing, but it is not owing either to mental laziness, or lack of interest in passing events or cessation of conviction. "Local" matter continually pushes aside my own lucubrations, and "From Dodgeville" must perforce usurp the space designed for them. I still believe in the saving grace of Free Trade, and have voiced myself on the Canal tolls question. As for Mexican matters, they are so damnably mixed, and still a-mixing through laborious efforts of the several war correspondents, that I hold my breath and impatiently await developments. All that the President has done in this connection I heartily endorse and feel assured that if war does come it will be because there is no other way out. I am no Jingo, but no Greaser can be permitted with impunity to trail our flag in the mud and dance the fandango or tango over its stars. This about covers all questions of present interest. The campaign will open shortly and I shall then take pleasure in dispensing political wisdom round about and in directing Bro. Hafner, who is but a sheep strayed from the flock, into the way from which he should never have departed.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

St. Vincent's Diamond Jubilee.

On June 14, 15 and 16, the Sisters of Loretto, Cape Girardeau, will celebrate the seventy-fifth anniversary of the founding of their Convent. Preparations are being made to celebrate this occasion in a fitting manner and it is hoped by the Sisters and the Alumnae of St. Vincent's Academy that as many of the old students of St. Vincent's as possible will be present at that time to make the Jubilee a joyous occasion.

If any of the readers of this notice happen to be old students (whether graduates or not) of the Loretto sisters at Cape Girardeau, and will drop a card, giving their address, to Miss Christine J. Wheeler, Chairman, Reunion Committee, Cape Girardeau, Mo., the information will be gladly appreciated. MABEL A. WEBER, Member, Reunion Committee.

Fruit Prospect is Better.

(From the West Plains Gazette.) "There's going to be lots of peaches this year," said a prominent fruit grower from Keokhonong who was in West Plains a few days ago. And that's what growers from Brandsville, Olden, Pomona, and other towns in this section report.

The severe freeze on April 8th and 9th did great damage to peaches in this section. According to Paul Evans, director of the State Fruit Experiment Station at Mountain Grove, orchards in this section which have been well cared for and where the air drainage is good, will have more than half a crop. Some orchards will have no peaches, while others may produce one-fourth of a normal crop.

"You'll get badly fooled if you examine the peach trees now," said a well known grower in discussing the

situation. "The leaves have come out on the trees and the little peaches are hard to find. You may see a few peaches at first, and when examined more closely you will find many more. The crop seems larger than was estimated after the April freeze."

Strange as it may seem, the peach crop seems to have been injured more in this section and south than in the northern part of the state. Throughout Arkansas, Oklahoma and Texas, the peach crop was ruined in April. Georgia will have a very short peach crop. The Missouri State Board of Agriculture figures that north and central Missouri will have 75 per cent of a full peach crop, while the Ozarks will have only 25 per cent of a crop. The fruit was further advanced here than in the northern part of the state. While the crop is short it should be profitable and many growers look for record prices.

The apple crop was never better. In this section there will be 90 per cent of a full crop. Strawberries also are in fine condition, but the dry weather last fall killed many plants, especially where they were not given proper attention.
